

## Why Join ASCE?

- Opportunities to work with other civil engineering students, faculty, and practicing engineers.
- Participation in intercollegiate competition such as the Pacific Southwest Regional Conference
- Learn application of civil engineering concepts
- Designing and constructing concrete canoes and steel bridges
- Information about the Engineering in Training exam (EIT)
- Scholarships, leadership and job opportunities
- Guest speakers
- Free lunch!

## Pacific Southwest Regional Conference

The UHM student chapter annually competes in a regional ASCE conference. Along with students from schools such as UCLA, University of Arizona, and Long Beach State (just to name a few), Hawaii students take part in various engineering and non-engineering events.

Twenty-seven students represented Hawaii at the last annual conference. In addition to the heralded concrete canoe competition and steel bridge competition, they competed in events such as surveying, technical paper and presentation, concrete bowling ball, volleyball, tug-of-war, impromptu design, engineering quiz bowl.

## Mission of the Chapter

The ASCE student chapter aims to promote a deeper understanding of all aspects of civil engineering. It encourages and fosters interaction among civil engineering students. Members participate in social events, and are also given the opportunity to learn more about the engineering curriculum and industry. In addition, the chapter takes part in activities that service the university as well as the community.

### 2002 Student Officers

President: Meris Ota

V.P.: Elisa Au

R. Secretary: Jason Seidman

C. Secretary: Eric Ancheta

Treasurer: Elliot Taniguchi

### ASCE Past Events:

- Competed and placed 7<sup>th</sup> overall in the 2002 Pacific Southwest Regional Conference
- MDA Telethon
- Sports Night
- Job Shadowing Program
- Leukemia Foundation's Light the Night Charity Walk
- Ronald McDonald House Visit
- Storm Drain Sign Stenciling in Downtown Honolulu
- Tennis Tournament
- Ala Moana Beach Clean-Up
- College of Engineering Events
  - Freshman Orientation
  - Open House
  - Engineering Expo

### Upcoming Events

- Basketball Tournament
- 2003 P.S.W.R.C.
- Design and Construction of the steel bridge and concrete canoe
- Fundraising Events

Office: Holmes Hall 143B

Phone: 956-5808
