AM SESSION FEATURING GOVERNMENT, MILITARY, MAINLAND AGENCIES, AND LOCAL CONSTRUCTION FIRMS

(9am - 12pm HST)

Alan Shintani, Inc.

Recruiting for: **For employment** in these majors: **Civil/Environmental Engineering | Construction Engineering | Electrical Engineering | Mechanical Engineering**

For more than two decades, Alan Shintani, Inc. has earned a solid reputation in Hawai'i for providing quality and cost-effective construction services. Since its establishment in 1984, the licensed general construction company has been providing optimum solutions by offering a range of quality general contractor services and construction management for homes, commercial buildings, and government projects in a timely and cost-efficient manner.

American Electric Company LLC

Recruiting for: **For employment** in these majors: **Electrical Engineering**

American Electric is one of the largest contractors in the state and is a signatory to IBEW Local 1186, Electrical Worker's Union in Honolulu.

Armstrong Builders LLC

Recruiting for: **For employment | For internship** in these majors: **Civil/Environmental Engineering | Construction Engineering**

Founded by Robert Armstrong in 1976, Armstrong Builders and its affiliates are recognized leaders in Hawai'i's residential and commercial construction markets. Armstrong Builders offer a range of services including the construction of new custom homes, commercial and residential renovation projects, and luxury resort and condominium development.

The Boeing Company

Recruiting for: **For employment | For internship** in these majors: **Civil/Environmental Engineering | Electrical Engineering | Engineering Science | Mechanical Engineering | Computer Engineering | Computer Science**

Boeing is the world's largest aerospace company and leading manufacturer of commercial jetliners, defense, space and security systems, and service provider of aftermarket support. As America's biggest

manufacturing exporter (along with employees in 50 states), the company supports airlines and U.S. and allied government customers in more than 150 countries. Boeing products and tailored services include commercial and military aircraft, satellites, weapons, electronic and defense systems, launch systems, advanced information and communication systems, and performance-based logistics and training.

Brown and Caldwell

Recruiting for: **For employment | For internship** in these majors: **Civil/Environmental Engineering | Electrical Engineering | Mechanical Engineering | Computer Engineering**

Brown and Caldwell (BC) is a full-service environmental engineering and construction firm with more than 52 offices and 1,700+ professionals across the U.S. and Canada. Since the 1990s, BC has been partnering with clients throughout Hawai'i and Guam. Through our growing team of 57 professionals on Oahu, Maui, Hawai'i Island and Guam, we offer a wide range of services to deliver customized solutions to efficiently and effectively address every project's unique challenges.

Burns & McDonnell

Recruiting for: **For employment | For internship** in these majors: **Civil/Environmental Engineering | Construction Engineering | Electrical Engineering | Mechanical Engineering**

At Burns & McDonnell, you are empowered to write your own story. If you have big dreams — and the talent and ambition to back them up — this is your kind of place. From offices across the U.S. and around the world, we take on some of the world's toughest challenges with the industry's best thinking. As a 100% employee-owned firm, you'll have the opportunity here to build your own success story, both personally and professionally. You will be empowered to build not just projects, but your career. Ready for your next chapter?

City and County of Honolulu

Recruiting for: **For employment | For internship** in these majors: **Civil/Environmental Engineering | Construction Engineering**

City government - Wastewater

Constructors Hawai'i Inc.

Recruiting for: **For employment** in these majors: **Civil/Environmental Engineering | Construction Engineering | Electrical Engineering | Engineering Science | Mechanical Engineering**

Constructors Hawai'i Inc. specializes in efficient execution of complex building projects with personalized attention and the highest quality of workmanship. A local industry leader since 1972, our

devoted team has consistently provided on-time excellence and value to our public and private sector clients.

Fast Enterprises

Recruiting for: **For employment** in these majors: **Computer Engineering | Computer Science**

Fast Enterprises was recognized as a Great Place to Work® for Millennials, Technology, and Diversity in 2019! Check out our employee reviews on Glassdoor!

We work directly with governments to implement systems used to administer a wide variety of programs. We offer commercial off-the-shelf software that helps agencies reduce costs, improve service, maximize revenues, and improve the efficiency of internal operations.

Developers should have strong technical and communication skills, and should be flexible with regards to work location.

G70

Recruiting for: **For employment | For internship** in these majors: **Civil/Environmental Engineering**

Founded in 1971, G70 is an award-winning multi-disciplinary design firm of architects, civil engineers, planners, interior designers, cultural practitioners, and technical professionals. We endeavor to understand every project's unique ecological and cultural context. This is foundational to all our work. we believe every project must capture respect and preserve the cultural heritage and unique qualities of the community to which it belongs in order to be successful built environments. Our projects are created with a cultural context through an integrated design process which recognizes that successful projects are created through consideration of multiple perspectives, collaboration, and consensus-building. We facilitate our clients' visions and dreams with experts across multiple disciplines who add exceptional value to each project while preserving the lifestyle of the surrounding community.

Goodfellow Bros. LLC

Recruiting for: **For employment | For internship** in these majors: **Civil/Environmental Engineering | Construction Engineering**

Goodfellow Bros. is a 4th gen, family-owned business with 100 years of experience in the heavy-civil construction arena. GBI has earned a reputation for professionalism and integrity the reflects our longstanding commitment to the employees, businesses and resources of our communities in which we live and work.

Our employees are our greatest asset, and by working for GBI, you are choosing a way of life, not just an employer. We continuously look for qualified and talented people to join our team. We commit to

providing a dynamic and challenging environment that allows for personal and professional growth. If you are committed, hard-working, and willing to learn, then GBI may be the place for you.

GPRM Prestress, LLC

Recruiting for: **For employment | For internship** in these majors: **Civil/Environmental Engineering | Construction Engineering | Engineering Science**

GPRM Prestress is a specialist precast concrete supplier serving the Hawaiian Islands. We locally manufacture a full line of quality Precast and Prestressed products for the structural, architectural, and civil building markets.

Granite Construction Company

Recruiting for: **For employment | For internship** in these majors: **Civil/Environmental Engineering | Construction Engineering | Mechanical Engineering**

We believe great ideas are born from great partnerships. From the largest, most complex infrastructure projects to the smallest construction jobs, from transportation to power to water projects, we're putting our commitment to collaboration to work. As one of the nation's largest diversified infrastructure providers and construction materials producers, we strive to provide our customers with the highest standards of quality, safety and service. We believe that when committed people work together, you generate more value at every level and build a better world for everyone.

Hawai'i Air National Guard

Recruiting for: **For employment** in these majors: **Civil/Environmental Engineering | Construction Engineering | Electrical Engineering | Engineering Science | Mechanical Engineering | Computer Engineering | Computer Science**

The Hawai'i Air National Guard (HIANG) has two missions. In performing its state mission, the HIANG provides organized, trained units to protect Hawai'i's citizens and property, preserve peace, and ensure public safety in response to natural or human-caused disasters. Its federal mission is to provide operationally-ready combat units, combat support units and qualified personnel for active duty in the U.S. Air Force in time of war, national emergency, or operational contingency.

Hawthorne Pacific

Recruiting for: **For employment** in these majors: **Electrical Engineering | Mechanical Engineering**

Hawthorne Pacific Corp is the local Caterpillar Dealership for Heavy Equipment, Power Systems, Rentals and Service. Since 1956, Hawthorne has served various industries including general and heavy

construction, quarry and aggregate, landscaping, marine, paving, waste management, backup power and power generation. Like our products, the list of support services we offer is continually being improved, expanded and redesigned around our commitment to customer satisfaction.

HDR Engineering, Inc.

Recruiting for: **For employment | For internship** in these majors: **Civil/Environmental Engineering**

HDR, Inc. is an employee-owned design firm, specializing in engineering, architecture, environmental, and construction services.

Healy Tibbitts Builders Inc.

Recruiting for: **For employment | For internship** in these majors: **Construction Engineering**

Healy Tibbitts Builders Inc. specializes in marine construction, pile driving and deep shoring systems. Healy's areas of expertise include construction of piers and wharves, stevedoring and marine transportation.

Hill AFB - Civilian Engineering

Recruiting for: **For employment | For internship** in these majors: **Electrical Engineering | Computer Engineering | Computer Science**

Hill Air Force Base employees support the Air Force's mission to fly, fight and win...in air, space and cyberspace. Civilian scientists and engineers acquire, sustain, modernize, and test some of the most technologically advanced hardware and software systems in the world. Find purpose while applying your talents and skills. Our future depends on you!

Largo Concrete, Inc.

Recruiting for: **For employment | For internship** in these majors: **Civil/Environmental Engineering | Construction Engineering**

Largo Concrete, Inc. is a full service self-performing structural concrete contractor. We have been a family-owned business for over 30 years with over 1,900 employees. The Largo team is a family and we aim to provide you with a feeling of pride and satisfaction in knowing you chose the right contractor.

Largo has completed over 1,000 structural concrete projects, including parking structures, high-rise residential / mixed-use structures, hotels, podiums, commercial buildings, hospitals, schools, renewable energy fields and power blocks throughout the Western US. Largo's revenues exceed \$500 million and we strive to grow everyday. Come join our team!

Layton Construction

Recruiting for: **For employment | For internship** in these majors: **Civil/Environmental Engineering | Construction Engineering**

Layton Construction has been building in Hawai'i for more than 15 years. From residential buildings to educational institutions to hospitals and medical offices, our experience spans Oahu, Kauai, Maui and Hawai'i Island. Our Layton Hawai'i team has the support of an award-winning national team with the resources to utilize cutting-edge technology and experience in virtually all industries.

We are more than a builder; we are partners who work with our clients to find the best solutions. We believe in the power of predictability and strive to be a steady partner who delivers well-planned, safe, and high-quality developments.

Mānoa Career Center

Recruiting for: **Other** in these majors: **Civil/Environmental Engineering | Construction Engineering | Electrical Engineering | Engineering Science | Mechanical Engineering | Computer Engineering | Computer Science**

The Mānoa Career Center strives to empower UH Mānoa students to engage in career life planning through awareness, exploration, experience, and reflection. We provide assistance with resume and cover letter development, interview preparation, internship and full-time job search, and graduate school application.

Due to COVID-19, our physical office in QLC 212 are temporarily closed. Our staff can be reached via email careers@hawaii.edu or the Chat feature at <http://manoa.hawaii.edu/careercenter/> for any questions and to schedule an appointment. All appointments will be conducted via telephone or online. Even though our doors are closed, we continue to be available to assist UH Mānoa students.

Nalco Water

Recruiting for: **For employment | For internship** in these majors: **Civil/Environmental Engineering | Engineering Science | Mechanical Engineering**

In a world with increasing water shortage and contamination challenges, Nalco Water, an Ecolab company, helps customers conserve more than 161 billion gallons of water each year. We work with customers across the world in the light industry (institutional, food & beverage, transportation and manufacturing), heavy industry (chemical, power and primary metals industries), paper and mining operations to reduce, reuse, and recycle their water while protecting their systems and equipment. Nalco Water provides the unique opportunity to work with a broad suite of technologies to deliver automated monitoring systems, data analysis and deep technical expertise to increase efficiency, sustainability and performance for our customers.

National Geospatial-Intelligence Agency

Recruiting for: **For employment | For internship** in these majors: **Engineering Science | Computer Engineering | Computer Science**

The National Geospatial-Intelligence Agency (NGA) delivers world-class geospatial intelligence that provides a decisive advantage to policymakers, warfighters, intelligence professionals and first responders.

National Security Agency (NSA)

Recruiting for: **For employment** in these majors: **Civil/Environmental Engineering | Construction Engineering | Electrical Engineering | Engineering Science | Mechanical Engineering | Computer Engineering | Computer Science**

The National Security Agency (NSA) is a world leader in signals intelligence and information assurance. We carry out some of the nation's most important and sensitive intelligence activities to secure information superiority for America and its allies. NSA also enables network warfare operations to defeat terrorists and their organizations at home and abroad, consistent with U.S. laws and the protection of privacy and civil liberties.

NAVFAC Pacific

Recruiting for: **For employment | For internship** in these majors: **Civil/Environmental Engineering | Construction Engineering | Electrical Engineering | Mechanical Engineering**

The Naval Facilities Engineering Systems Command manages the planning, design and construction of shore facilities for U.S. Navy activities around the world. We provide the Navy's forces with the operating, support and training bases they need when they are home...from the sea.

NIWC PAC

Recruiting for: **For employment | For internship** in these majors: **Electrical Engineering | Engineering Science | Mechanical Engineering | Computer Engineering | Computer Science**

Naval Information Warfare Center Pacific (NIWC), formerly known as SPAWAR Systems Center Pacific, supports the Navy with their Command, Control, Communications, Computers, Intelligence, Surveillance, and Reconnaissance engineering needs. We develop engineering and software technologies for the Navy and are looking to hire Engineers and Computer Scientists.

NUWC Div Keyport

Recruiting for: **For employment** in these majors: **Electrical Engineering | Engineering Science | Mechanical Engineering | Computer Engineering | Computer Science**

The mission of the Naval Undersea Warfare Center (NUWC) Division, Keyport is to provide advanced technical capabilities for test and evaluation, in-service engineering, maintenance, and industrial base support, fleet material readiness, and obsolescence management for undersea warfare.

Pan-Pacific Mechanical

Recruiting for: **For employment | For internship** in these majors: **Construction Engineering | Mechanical Engineering**

Pan-Pacific Mechanical is a premier, full mechanical design-build subcontractor specializing in healthcare, high-rises, government projects, entertainment complexes, schools, and universities.

Peace Corps

Recruiting for: **For employment** in these majors: **Civil/Environmental Engineering | Engineering Science**

The Peace Corps is a service opportunity for motivated change-makers to immerse themselves in a community abroad, working side by side with local leaders to tackle the most pressing challenges of our generation.

Peace Corps service can be the first step toward a career or the continuation of a life's work. Sharpen your skills in a field you've always loved, or challenge yourself with a new opportunity. Peace Corps offers paid international development work in 6 broad sectors of Agriculture, Community Economic Development, Education, Environment, Health, Youth in Development. We send qualified U.S. citizens overseas for immersive service and we provide extensive training for volunteers to be able to work, live, and communicate with their communities. We encourage all majors to consider applying.

Pearl Harbor Naval Shipyard & IMF

Recruiting for: **For employment** in these majors: **Civil/Environmental Engineering | Construction Engineering | Electrical Engineering | Mechanical Engineering**

Pearl Harbor Naval Shipyard and IMF (PHNSY & IMF), the largest industrial employer in the State of Hawai'i with over 6000 civilian and military employees, is in the business of repairing and modernizing naval ships and submarines. Our engineers, from a variety of disciplines, are involved in the planning and supervision of the highly challenging work of providing technical guidance through written work procedures and on-the-job direction of the workforce. On a day-to-day basis, our engineers spend their time working onboard submarines or surface ships and working in an office setting. PHNSY & IMF is looking for energetic self-motivated engineers to join the select group of men and women in our various

Engineering Departments. We offer competitive pay, generous vacation benefits, paid overtime, excellent retirement system and federal health benefits.

Purple Mai'a Foundation - Hiapo Program

Recruiting for: **For internship** in these majors: **Computer Engineering | Computer Science**

The Hiapo Program is a workforce development project to help Native Hawaiians earn new careers in the technology sector. We offer a full 6-month program including paid-apprenticeship to help build expertise and understanding. Graduates should expect at least 2 internationally recognized certifications upon completion.

Raytheon Technologies

Recruiting for: **For employment** in these majors: **Electrical Engineering | Engineering Science | Mechanical Engineering | Computer Engineering | Computer Science**

Raytheon Technologies Corporation is an aerospace and defense company that provides advanced systems and services for commercial, military and government customers worldwide. It comprises four industry-leading businesses – Collins Aerospace Systems, Pratt & Whitney, Raytheon Intelligence & Space and Raytheon Missiles & Defense.

Rosendin

Recruiting for: **For employment | For internship** in these majors: **Civil/Environmental Engineering | Construction Engineering | Electrical Engineering | Engineering Science | Mechanical Engineering**

Rosendin is one of the largest electrical contractors in the United States employing over 7,000 people. We are EMPLOYEE OWNED – For more than 100 years, Rosendin has created a reputation for building quality electrical and communications installations, building value for clients, and building people within the company.

Samtec

Recruiting for: **For employment | For internship** in these majors: **Electrical Engineering | Mechanical Engineering**

Much more than just another connector company, Samtec is committed to providing exceptional service, quality products, and convenient design tools. We believe that taking care of our customers and our employees is paramount in how we approach our business. This belief is deeply ingrained throughout the organization, and means that you can expect exceptional service coupled with technologies that take the industry further faster.

Sen Plex Corporation

Recruiting for: **For employment | For internship** in these majors: **Construction Engineering | Mechanical Engineering**

Sen Plex Corporation and its subsidiaries Oahu Plumbing and Sheet Metal, Ltd, and Oahu Air Conditioning Service Inc. are recognized as the leaders in commercial mechanical construction and service in Hawai'i. With offices on Oahu, Hawai'i, Kauai and Maui, we are able to offer quality craftsmanship and service to customers throughout the state.

We recognize that our employees contribute to the Company's success and reward them with opportunities for personal and professional growth. We have several licensed Professional Engineers that work alongside our staff, sharing their knowledge and expertise. Our generous benefit package includes competitive salaries, medical insurance, paid time off and retirement savings plan.

State of Hawai'i Department of Transportation

Recruiting for: **For employment | For internship** in these majors: **Civil/Environmental Engineering | Construction Engineering | Electrical Engineering | Engineering Science | Mechanical Engineering | Computer Engineering | Computer Science**

The Hawai'i Department of Transportation is responsible to plan, design, construct, operate, and maintain State facilities in all modes of transportation, including air, water, and land.

U.S. Army Corps of Engineers, Honolulu District

Recruiting for: **For employment | For internship** in these majors: **Civil/Environmental Engineering | Construction Engineering | Electrical Engineering | Engineering Science | Mechanical Engineering | Computer Engineering | Computer Science**

To provide vital public Engineering services in peace and war to strengthen our Nation's security, energize the economy, and reduce risks from disasters. We are America's Engineers in the Pacific.

USINDOPACOM JIOC

Recruiting for: **For employment | For internship** in these majors: **Civil/Environmental Engineering | Construction Engineering | Electrical Engineering | Engineering Science | Mechanical Engineering | Computer Engineering | Computer Science**

Be a part of a team that leaders at all levels of the military and US government rely on to protect the nation. Here at Defense Intelligence Agency (DIA), we produce the cutting-edge analysis, targeted collection, and scientific and technological expertise employed to prevent and decisively win wars. Our

global mission requires a diverse workforce. We have more than 50 unique career specialties. DIA provides you the opportunity to serve your country and support the men and women defending our nation around the world. Join DIA in our commitment to excellence in defense of the nation.

The Whiting-Turner Contracting Co.

Recruiting for: **For employment | For internship** in these majors: **Civil/Environmental Engineering | Construction Engineering | Mechanical Engineering**

Since 1909, Whiting-Turner has been guided by the principles of integrity, excellence and an unwavering dedication to customer delight. With over 50 locations nationwide, the firm's over 4,200+ salaried professionals provide depth of resources to service nationally and to build locally. The mission of Whiting-Turner is to build on our reputation for integrity, excellence, experience and leadership as the nation's finest construction organization.

Whiting-Turner is one of the fastest growing construction firms in the nation-but not through acquisitions of other firms. Our growth is completely organic and derived from the pride our people take in applying ethics and talent to the opportunities presented, and their unwavering dedication to our primary mission - Delighting our customers.

Whiting-Turner people get to work with premier architects and consultants from around the world on some of the most intriguing and technically demanding projects being designed and built. Our construction professionals are exposed to the very latest trends, building systems and construction methods on projects such as hospitals, life sciences laboratories, data centers, performing arts facilities, university sports facilities and lifestyle centers.

W.M. Keck Observatory

Recruiting for: **For employment | Other** in these majors: **Electrical Engineering**

The W. M. Keck Observatory (WMKO) operates two 10-meter optical/infrared telescopes and an associated suite of advanced instrumentation. These telescopes have been extremely productive scientifically and have allowed the WMKO science community to play a leading role in understanding the universe from our solar system, to exoplanets, black holes, the earliest galaxies, and dark matter and energy.

Young Professionals of AWWA-HI and HWEA

Recruiting for: **For employment | For internship | Other** in these majors: **Civil/Environmental Engineering | Construction Engineering | Electrical Engineering | Engineering Science | Mechanical Engineering | Computer Engineering | Computer Science**

We are employed by, advocate for, promote, and proudly represent Hawai'i's most precious resource; WATER! The Young Professionals of the American Water Works Association Hawai'i Section and the

Hawai'i Water Environment Association are the next generation of industry leaders, creating personal and professional alliances between local, national, and international organizations by establishing a community of like-minded, ambitious, and involved members. Relationships are everything here in Hawai'i; connect with us and network with hundreds of water and wastewater industry employers and professionals today!

PM SESSION FEATURING OTHER LOCAL PRIVATE FIRMS

(1pm - 4pm HST)

AECOM

Recruiting for: **For employment | For internship** in these majors: **Civil/Environmental Engineering | Construction Engineering | Electrical Engineering | Mechanical Engineering**

AECOM is built to deliver a better world. We design, build, finance and operate infrastructure assets for governments, businesses and organizations in more than 150 countries. As a fully integrated firm, we connect knowledge and experience across our global network of experts to help clients solve their most complex challenges. From high-performance buildings and infrastructure, to resilient communities and environments, to stable and secure nations, our work is transformative, differentiated and vital.

ARL at UH VCHPC @ MHPCC

Recruiting for: **For employment** in these majors: **Computer Engineering | Computer Science**

Established in 2008, the Applied Research Laboratory at the University of Hawai'i (ARL at UH) is the fifth of five Navy-sponsored University-Affiliated Research Centers. The ARL at UH serves as a center of excellence for critical Navy and national defense needs, conducting research, development, testing and evaluation (RDT&E) to address challenging and emerging problems. ARL at UH efforts focus on Ocean Environmental Effects; Astronomical Research; Advanced Electro-Optical Systems, Detectors, Arrays and Instrumentation; Environmental Sensor Research and Remote Sensing; New Renewable Energy; and Mission-Related and Public-Services-Oriented Research and Development. On May 13, 2019, Naval Sea Systems Command (NAVSEA) awarded a five-year Indefinite Delivery/Indefinite Quantity contract to the ARL at UH to continue its support of critical Navy and Department of Defense requirements.

Austin Tsutsumi

Recruiting for: **For employment | For internship** in these majors: **Civil/Environmental Engineering**

Austin, Tsutsumi and Associates remains ROOTED IN TRUST and GUIDED BY PRINCIPLE. With offices on Oahu and Maui, ATA designs projects on every island in Hawai'i, providing Civil Engineering, Transportation Engineering, Land Planning, Project Management, Public Works, Construction Management and Land Surveying.

ATA believes in its mission statement - Working together, we exceed expectations through integrity, innovation and service. ATA is known for our client service because of our associates' belief that in working together and creating the best relationships results in the best project possible. These core values create a sense of trustworthiness, honesty and fairness within ATA.

Bowers + Kubota Consulting

Recruiting for: **For employment | For internship** in these majors: **Civil/Environmental Engineering | Construction Engineering | Electrical Engineering | Engineering Science**

Bowers + Kubota Consulting and Belt Collins Hawai'i merged to expand their services and benefits to their clients.

We are an Employee-Owned Kama'iana architectural/engineering/planning firm based in Hawai'i. Our employees are our most important asset. We provide ongoing staff mentoring to instill the values and vision of our founders.

Carollo Engineers

Recruiting for: **For employment | For internship** in these majors: **Civil/Environmental Engineering**

Carollo Engineers is an environmental engineering firm that specializes in the planning, design, and construction of water and wastewater facilities. And we are looking for motivated, talented people to join our team.

CENSEO AV+Acoustics

Recruiting for: **For employment | For internship** in these majors: **Electrical Engineering | Mechanical Engineering**

CENSEO AV+Acoustics is at the cutting edge of today's acoustical engineering and design. Our acoustical engineers use calculated test and measurement to assist architects in discovering the best solutions for difficult acoustic problems. With proper noise reduction measures, we help improve acoustic environments, make privacy improvements, and reduce the effects of noise pollution. We specialize our services in architectural acoustics, Audio/Visual systems design, noise and vibration control, environmental noise assessment, and other acoustical engineering services to meet design challenges on projects of any scale.

Community Planning & Engineering, Inc.

Recruiting for: **For employment | For internship** in these majors: **Civil/Environmental Engineering**

Community Planning and Engineering, Inc. (CP&E) has worked for the past five decades and more to establish itself as one of Hawai'i's premier infrastructure and land development experts. Today, CP&E continues to engineer Hawai'i's urban landscape by providing public and private sector clients with a spectrum of civil engineering services ranging from conceptual master planning and roadway and utilities layout to design and construction management. To date, we have been involved with the development of new communities on the islands of Kauai, Oahu, Maui, and Hawai'i.

DataHouse

Recruiting for: **For employment | For internship** in these majors: **Computer Engineering | Computer Science**

DataHouse is a technology consulting & development firm that has earned a reputation for helping organizations improve their business practices and achieve better results. Since the company's founding in 1975, customers have relied on DataHouse not only for its technology expertise, but for its domain knowledge in key industries, including healthcare, government, banking and education.
