

&gt;&gt;&gt; NEWSLETTER &lt;&lt;&lt;

Aloha! Welcome to the Hawai'i Local Technical Assistance Program (LTAP) first newsletter. The first of our quarterly newsletter series. This newsletter will help us share our latest information, resources, future and past events. We will do our best to provide any additional resources from the local, state, federal and non-federal level. We look forward to growing with our community and be able to continue our education besides everyone who has a relation to the transportation workforce.

The Hawai'i Local Technical Assistance is now being housed at the College of Engineering at The University of Hawaii at Manoa. With these exciting new changes our team is excited to work with each and everyone of you all in the future.

## STEERING COMMITTEE MEETING - <<< FEBRUARY 2023

In February we held our first steering committee. During this meeting we heard from our community members on what they want or need from our program. We are thankful for this opportunity to be able to re-introduce our commitment to our community by providing whatever support we can provide for our members to help serve the community.

# TRAFFIC MONITORING PROGRAMS

## »» MARCH 2023

Traffic Monitoring Programs: Guidance and Procedures was held in March. During this training attendees went over Federal traffic monitoring regulations. With various other subjects that introduce federal guidance, best practices, and recommended procedures for developing a data collection framework for traffic volume, speed, classification, weight and transportation management and operations.

## »» BEST PRACTICES - APRIL 2023

In our long standing partnership with Hawaii Asphalt Paving Industry we organized the Best Practices workshops. Housing two workshops in two different islands. One was conducted on Kauai on April 24 & 25 and the second workshop was conducted on Oahu April 26 & 27th. The Oahu workshop was hosted at the East West Center at UH at Manoa Campus. Best Practices is a workshop that helps provide a basic understanding of materials, production, placement, and compaction operation that combine to produce a quality asphalt pavement. We would like to thank HAPI's Executive Director Jon Young for working with us on this amazing workshop and our continuous partnership.

# HAWAII MULTI DISCIPLINE WORKSHOP

## NEPA, ENVIRONMENTAL JUSTICE, CIVIL RIGHTS, PUBLIC INVOLVEMENT, AND RELATED TOPICS

In May Hawaii Multi-Discipline workshops have been hosted at the University of Hawaii at Manoa, Campus Center. Workshops occurred over five days in May. Participants learned over NEPA topics where classes went over action, purpose and need, alternatives development and analysis, public involvement, interagency coordination, mitigation, and documentation. These workshops were interactive, and with intensive information being given to the attendees. The workshop was fun and attention grabbing for our attendees.

## MONTHLY TRAINING

Monthly training has been held at the end of the month until October and the past several months of the year. These sessions cover a various amount of topics that help our community grow.

## GOING FORWARD AND TOWARDS A BETTER FUTURE

We are currently working on many more updates! Please be patient with us as we will keep growing to a brighter future for everyone interested in our program. We hope to have a functional and interactive website up very soon. But for now if you or someone else would like to be part of our community, please fill out this form and we will make sure to add you or them into our contact list. You can also find us on LinkedIn at ---.
