

College of Engineering

Connecting education to industry and the community

UNIVERSITY
of HAWAII®
MĀNOA

RECRUITMENT OPPORTUNITIES

Our semiannual Career Expo attracts 100+ employers from Hawai'i and the U.S. Continent. Hundreds of students attend each semester to connect with our industry partners for job and internship opportunities. Throughout the year, students and employers can continue to engage via workshops, lunch-and-learn events, and our website's engineering job board.

INDUSTRY-INFUSED EDUCATION

From our Pearl Harbor Co-op program to the Community Innovation Mentorship Program, we offer our students numerous opportunities to build relationships with employers and gain real-world experience while providing solutions to challenges facing the community and nation, all while earning college credit.

ALUMNI ENGAGEMENT

We foster alumni engagement throughout the year at signature events including our Holmescoming fall social, the spring Annual Banquet and the summer's Alumni Golf Tournament. Serving as a hub for Hawai'i's current and aspiring engineers, we connect students, faculty, and alumni with members of industry to build a stronger engineering community.

K-12 OUTREACH

- Engineering Student Ambassador community engagement
- Native Hawaiian Science and Engineering Mentorship (NHSEMP) programming
- Junior Engineers Summer STEM Experience (JESSE) internship
- EngineeringHI: academic support for middle and high school students
- Campus events: fall Open House and spring Middle School Showdown
