

# NOW HIRING:

## Network Engineer / (ISSM)

We are currently seeking a **Network Engineer / Information System Security Manager (ISSM)** to join our team. In this role, you will provide hands-on network engineering services—from configuration and network management to architectural design, security planning, and advanced troubleshooting. You will also deliver Tier 2 and 3 support and end-user assistance, while training to serve as both Network Engineer and ISSM.

This is a unique opportunity to be part of a cross-functional team driving innovation through applied science and engineering.

### THE VALUE YOU DELIVER:

- Design and implement network security architectures to fortify the overall security of network environments
- Responsible for drafting of security of plans, operating procedures, and other security related policies and procedures.
- Perform network security checks and follow Security Technical Implementation Guides (STIGs).

### THE EXPERTISE WE'RE LOOKING FOR:

- Associate Degree in Computer Science or Computer Technical Certificate (MSCE or GAIC certificate) or equivalent related experience.
- Two years' network administration experience required.
- Windows and Linux (Ubuntu) experience required

Here at Oceanit, our mission is to create value from innovation through engineering and scientific excellence produced in an environment where elements of such work and play are indistinguishable.

We are proud of what we've created and what lies ahead. We are Oceanit.
