

# NOW HIRING:

## Senior Engineering Manager

We are seeking a highly experienced and motivated **Senior Engineering Manager** to lead and oversee multidisciplinary engineering projects from concept through completion. This role requires a strong technical foundation, proven leadership capability, and the ability to manage client relationships while guiding engineering teams to deliver high-quality, innovative solutions.

The ideal candidate brings a balance of technical expertise, project management excellence, and strategic thinking, with a track record of successfully delivering complex design projects.

### THE VALUE YOU DELIVER:

- Provide technical direction and quality assurance for engineering designs and documentation.
- Coordinate with internal teams, external consultants, and stakeholders to ensure timely and efficient project delivery.
- Develop project scopes, schedules, budgets, and resource plans.

### THE EXPERTISE WE'RE LOOKING FOR:

- Bachelor's degree in Engineering (Civil, Mechanical, Electrical, or related field required). Master's degree or higher is strongly preferred.
- Active Professional Engineer (PE) license in the State of Hawaii, or ability to obtain licensure within one year of hire. Minimum of 5 years of experience managing multidisciplinary engineering design projects from concept to completion; 10+ years preferred.
- Strong leadership and team development skills.

Here at Oceanit, our mission is to create value from innovation through engineering and scientific excellence produced in an environment where elements of such work and play are indistinguishable.

We are proud of what we've created and what lies ahead. We are Oceanit.
